University Health

is committed to recognizing and rewarding employees who exhibit outstanding performance and superior customer service. A positive attitude, professional competence and the ability to provide a positive patient experience are important to our patients and families, and the success of our healthcare mission: The primary mission of University Health System is to teach, heal and discover in order to advance the health and well-being of the community.

Who in your stay is someone who SHINEs? Many of our patients and families express so much gratitude for the care they or a loved one received at University Health. Often, they wonder how they can say "Thank You" in a special way to those who have cared so much – those who have SHINEd.

Everyday heroes are rarely recognized, and yet, everyday heroes come to work at University Health to care for patients and their families.
